EC2 Studio - Compact Disc Player & Error Checker Pricelist 9910/X

Main unit

EC2 Studio - CD Player & Analyser

EC2/12S

The EC2 Studio comprises the basic system housed in a standard 19" 3U rack mount enclosure with integrated PSU for 110/230 VAC, 50/60Hz, 3/5 A mains supply. The system will handle all single-session (multi-session as option) CD-formats including CD-Audio, CD-ROM, CD-ROM XA, Video-CD, Photo-CD (CD-I as option) and Mixed-mode from replicated CD's and CD-R's with finalized TOC (including PM-CD's) in real-time. Program area is tested. Digital errors (BLER, E11, E21, E31, C1-burst, E12, E22, E32), toc and subcodes are tested and are presented on internal front panel display and printed report. Special Audio software including levelmeter and headroom measurement. AES/EBU digital audio output on backpanel XLR connector.

EC2 Studio - Transfer version

EC2/12T

Special version suitable for digital transfers (including time-code and PQ-data) to PCM1630/U-matic and digital audio workstations. Not available in combination with Multi-session support. All of the above features and also including the Time-code output (ET), PQ-burst output (EP) and special Transfer software.
